INFORMATION SCIENCE
ISC 403: PRACTICAL CLASSIFICATION

2ND SEMESTER 2022/2023

TIME: 2 HRS

INSTRUCTIONS

There are three (3) Sections (A, B, and C)

Question One (1) is Compulsory)

One question from each Section (B and C) Must be attempted

SECTION A

- Q. 1. a) Explain any 10 rules of book classification (10 marks)
 (b) Discuss the logical steps in practical book classification (20 marks)

SECTION B

Using the DEWEY decimal classification scheme, assign CALL NUMBER and show the major components of the class number assigned to the books whose titles and other relevant details are given in question 2 and 3. State the edition of the DDC used (20 marks)

- Q. 2 **Title page**

A Concise Encyclopedia of the Philosophy of Religion

By Anthony C. Thiselton

One world Publications

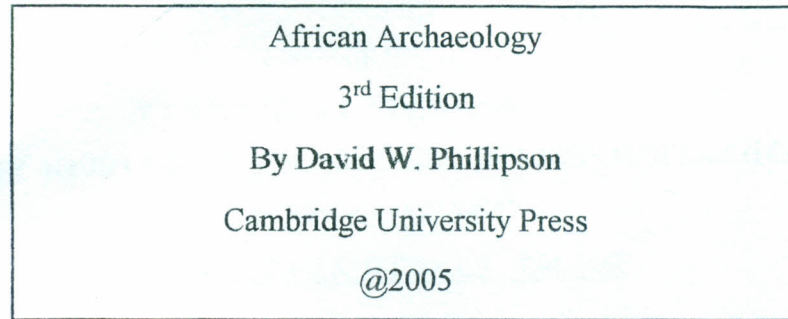

@2014

Other details:

Covering thinkers from Plato to Freud, offering detailed explanations of key themes such as evil, and outlining clear definitions of complex ideas like 'the doctrine of analogy,' this is a comprehensive reference tool for all those studying, or interested in, the philosophy of religion.

Q. 3

Title page

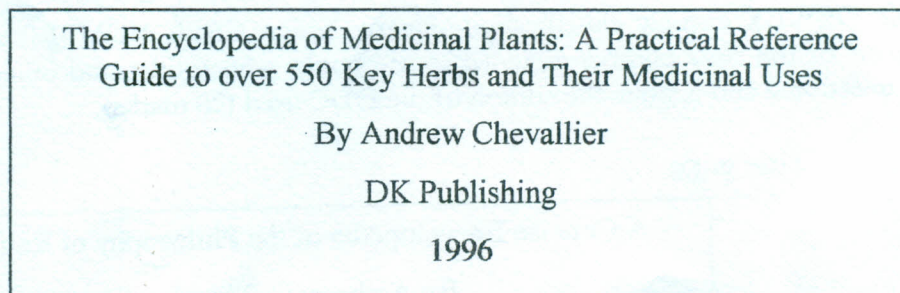

Other details:

David Phillipson presents an illustrated account of African prehistory, from the origins of humanity through European colonization in this revised and expanded edition of his original work. Phillipson considers Egypt and North Africa in their African context, comprehensively reviewing the archaeology of West, East, Central and Southern Africa. His book demonstrates the relevance of archaeological research to understanding contemporary Africa and stresses the continent's contribution to the cultural heritage of humankind.

SECTION C

Using the Library of Congress classification scheme and the Library of Congress Book number table, assign CALL NUMBERS to the books whose title and other relevant details are provided in questions 4 and 5 below. Describe the major components of the call number and state the edition of Library of Congress schedule used (20 marks)

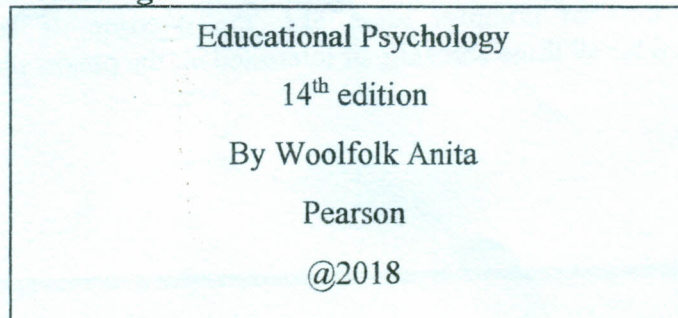

Q 4. Title Page

Other details

A fully illustrated reference guide on medicinal plants and their therapeutic properties explains how the plants work, how herbal medicine was developed, and how to use home remedies to relieve common ailments, and features a unique photographic index that profiles more than 550 plants from around the world.

Q. 5. Title Page

Other details

Educational Psychology, 14th Edition emphasizes the educational implications and applications of research on child development, cognitive science, learning, motivation, teaching, and assessment. Theory and practice are considered together, showing how information and ideas drawn from educational psychology research can be applied to solve the everyday problems of teaching. Infused with real-world issues, lesson segments, case studies, and practical ideas from experienced teachers, Educational Psychology reflects the field and offers unique and crucial knowledge to any who dare to teach and to all who love to learn.

The 14th Edition provides cutting-edge coverage and intelligent examinations of emerging trends in the field and society that affect student learning, such as student diversity, inclusive classrooms, neuroscience, educational policy, and technology.
